Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1723

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/23/07 has been entered.

2. Claim 1 and 35 are objected to because of the following informalities: "the waste liquid discharge line" on line 25, "said waste liquid discharge line" on lines 26 and 27 of claim 1 should be corrected to "said first waste liquid discharge line". "said waste liquid discharge line" on line 28 of claim 35 should be corrected to "said waste drain line". Appropriate correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 38 is rejected under 35 U.S.C. 102(b) as being anticipated by WO 96/28198 (hereinafter referred to as WO '198). WO '198 teaches a device for the extracorporeal treatment of blood comprising first filter (10) and a second filter (13) comprising membranes inherently separating chambers into a first chamber and a second chamber and a first inlet of the first chamber of the first filter (10) connected to a blood input line (22) and a first outlet of the first chamber of the first filter (10) connected to a blood output line (23) and a second outlet of the second chamber of the first filter (10) connected to the first inlet of the second chamber of the second filter (13) via a line, the first outlet of the first chamber of the second filter (13)

Art Unit: 1723

connected to the input line (22) via a line, the second outlet of the second chamber of the second filter (13) has a discharge line (see figure 2; page 4). WO '198 further teaches the method for extracorporeal treatment of blood comprising sending blood through the input line (22) connected to the first filter (10), filtering blood through the first filter (10) to produce first filtrate (11), filtering all of the first filtrate (11) coming from the second fluid outlet (11) of the first filter (10) at least a second time by introducing all of the first filtrate in the first inlet of the second filter (13) to produce second filtrate (18) and sending the second filtrate (18) to the input line (22) to effect a pre-dilution of blood to be treated and sending blood out from the first filter (10) to the output line (23) and sending a retentate e.g. non-filtered liquid from the second chamber of the second filter (13) to a drain line which is connected to the second fluid outlet (12) of the the second filter (13) (see figure 2; page 4).

5. Claims 1-37 are allowed.

6. Applicant's arguments with respect to new claim 38 have been considered but are moot in view of the new ground(s) of rejection.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Kim whose telephone number is 571-272-1142. The examiner can normally be reached on Monday-Friday 7 a.m. - 3:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571-272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
